

National Statistical Survey Programme (NSSP)
Act CLV of 2016 on Official Statistics and other legislation on mandatory statistical surveys
Ministry of Interior

Type: statistical data transmission

NSSP ID Number	Name of the data source	Responsible ordering organisation	Data provider	Frequency	Receipt deadline	Description of data categories
1373	Agricultural water use and water supply	Ministry of Interior	General Directorate of Water Management	Annual	31st January following the reference year	(1) Individual water use (Amount of extracted, utilized and released water (irrigation, fish ponds, other); legally licenced area (irrigation, fish ponds); area declared for operation (irrigation, fish ponds)); (2) Main capacity and water supply details of the main works (Amount of extracted and utilized water (irrigation, fish ponds, other); legally licenced area (irrigation, fish ponds); area declared for operation (irrigation, fish ponds)); (3) Distribution of irrigation and fish ponds by county (Legally licenced area; operated area through the year; amount of sold water).
1375	Data of groundwater abstraction and monitoring wells	Ministry of Interior	General Directorate of Water Management	Annual	30th June following the reference year	(1) Basic data of production and observation wells and spring; (2) Identifier of production and observation wells and spring; (3) Quantitative measurement data of production and observation wells and spring; (4) Quality analysing data of production and observation wells and spring.
1376	Main technical and economical data of the public utility for drinking water supply and waste water services	Ministry of Interior	General Directorate of Water Management	Annual	31st March after the reported year	(1) The technical-economic data related to the the public utility water supply and sanitation activity; (2) The quantitative, qualitative, and capacity data of infrastructures for fresh water production, raw water treatment and the drinking water distribution; (3) The drinking water supply network connections and water flow data; (4) Characteristic data of pressure zones; (5) The quantity, capacity and technological data of sewage collection, pumping and transport and treatment plants; (6) Treatment of sewage sludge disposal the renewable energy and biogas usage; (7) The net income of the drinking water supply network, as well as sanitation network cleaning, the average price of drinking water supply and sanitation.
1378	Water intake and water purification data of industrial water users consuming total freshwater 5 m ³ /h and consuming above 80 m ³ /d freshwater	Ministry of Interior	General Directorate of Water Management	Annual	30th April following the reported year	(1) Data provider and plant site data; (2) Quantitative and qualitative data of water resources used; (3) Operating data of water management; (4) Quantitative and qualitative characteristics of used water emissions; (5) Plant site water and wastewater treatment as well as sewage sludge treatment, energy- and biogas utilization data.; (6) Public utility water supply-, sewage tariffs and labor data.
1694	Data on abstractions from and discharges into surface waters	Ministry of Interior	General Directorate of Water Management	Annual	31st January following the reference year	(1) Identification data of the water user; (2) Water abstraction data (Identification of the abstraction site (watercourse, section); Utilisation of the abstracted water and method of abstraction; Information on the water abstraction permit; Annual amount of abstraction (m ³); Monthly amount of abstraction (m ³); (3) Discharge data; Identification of the discharge site (watercourse, section); Information on the water discharge permit; Annual amount of discharge (m ³); Monthly amount of discharge (m ³); Quality of the discharged water; (4) Data on water transfers (Identification of the intake/outflow sites (watercourse, section); Information on the water transfer permit; Annual amount of water transfer (m ³); Monthly amount of water transfer (m ³); (5) Data on reservoirs (Identification of the location of the reservoir (watercourse, section); Purpose of the reservoir and storage; Information on the water permit of the reservoir; Monthly data on reservoir operation (m ³).
1549	Cumulative report on neoplastic diseases	Ministry of Interior	National Institute of Oncology	Annual	30th June following the reference year	(1) All the observed malignant-, and in situ neoplastic disease, is the benignant tumour of the brain and vesica.
1560	Summary of food-borne outbreaks	Ministry of Interior	Hungarian National Center for Public Health and Pharmacy	Annual	30th April following the reference year	(1) Data on food-borne outbreaks by county, month and causative agents.
1561	Reported cases of notifiable communicable diseases	Ministry of Interior	Hungarian National Center for Public Health and Pharmacy	Annual	30th April following the reference year	(1) Data on reported communicable diseases by counties, month and age groups.
1565	Estimated number of influenza-like illness in epidemic year	Ministry of Interior	Hungarian National Center for Public Health and Pharmacy	Annual	31st May following the reference year	(1) Data on patients visiting doctors with influenza or influenza-like symptoms (estimated number during epidemic year).
1566	Report on immunization	Ministry of Interior	Hungarian National Center for Public Health and Pharmacy	Annual	30th April following the reference year	(1) Data on mandatory childhood vaccination (number of persons to be vaccinated; number of vaccinated persons; vaccination coverage); (2) Data on mandatory childhood vaccination by counties (number of persons to be vaccinated; number of vaccinated persons; vaccination coverage); (3) Data on mandatory vaccination in case of risk of infectious disease; (4) International travel vaccination; (5) Data on influenza vaccination (by counties).
1570	Report on human poisoning cases	Ministry of Interior	Hungarian National Center for Public Health and Pharmacy	Annual	31st March following the reference year	(1) Data of poisoning by medicines; (2) Data of poisoning by household products; (3) Data of poisoning by pesticides; (4) Data of poisoning by other chemicals;

1572	Report on occupational diseases	Ministry of Interior	Hungarian National Center for Public Health and Pharmacy	Annual	15th April following the reference year	(1) Characteristics of occupational diseases (number and frequency by clinical manifestation; morbidity by sectors of national economy; by etiology; by geographical distribution); (2) Characteristics of cases with increased exposition (number and ratio; morbidity by sectors of national economy; by cause of exposition; by geographical distribution).
1573	Report on HIV infections and AIDS diseases	Ministry of Interior	Hungarian National Center for Public Health and Pharmacy	Annual	30th April following the reference year	(1) Data of newly discovered HIV-infected persons, by risk groups; (2) Data of AIDS patients by risk groups; (3) Data of people dying from AIDS-related causes, by risk groups; (4) Data of AIDS patients by county distribution; (5) Data of newly discovered HIV-infected persons and AIDS patients by age.
1589	Statistics on the distribution of physicians and dentists by region, specialist qualification, age and sex	Ministry of Interior	National Healthcare Service Center	Annual	31st March following the reference year	(1) Distribution of physicians by region, specialist qualification, age and sex; (2) Distribution of dentists by region, specialist qualification, age and sex.
1860	Report on the number of physicians, dentists, pharmacists and specialized clinical psychologists with granted diploma	Ministry of Interior	National Healthcare Service Center	Annual	28th February following the reference year	(1) Headcount data of graduated medical doctors, dentists and pharmacists.
2204	Data of health sector-specific incomes and jobs in the circle of institutes payroll calculation system	Ministry of Interior	Data providers of the healthcare sector employment and wage registration system	Monthly	25th following the reference month	(1) Data of health sector-specific incomes and jobs covered by the payroll of the Hungarian State Treasury.
